

EXPERIENCE

FrontEnd Developer

Sparrowhawk System

July 2023 — current

India

- I am working as a FrontEnd Developer.
- My role here is to develop end to end feature on demand of the PM.
- I am still on the learning phase and I think I will always be.
- Skills Gained: Postman , NestJS , ReactJS, Redux, MongoDB.

Technical Support Intern

LimeChat

Jan 2023 — June 2023

India

- LimeChat is a company which provides a software collaborating all your social media at a place.
- It also has BOT mapped to each Inbox.
- My Role here was to check for bugs, I use to see lot of logs and find out the reasons for failure.
- This is an in office internship , I have been coping up with the fast paced startup.
- This role is something new to me I am working on accepting anything which makes me learn.
- Skills Gained: Kibana , Freshdesk , Postman , Collab , metabase, tabblue , Slack.

Frontend Developer Intern

Baaz

Feb 2022 — March

2022 India

- Baaz is an online video shopping platform which helps retailers whole sellers to establish their shop online .
- Role here was to code the Figma design given by the design team.
- This was an inoffice intern so I was able to see the working culture. I felt quiet nervous meeting new people but at the end everything was good and ohk.
- Adapting new technology to work is always challenging and thats what I did "Challenge Accepted".
- Skills Gained: Figma , GitHub , ReactJS , CSS , Slack.

EDUCATION

Bachelor of Engineering, Information Technology, Army Institute of Technology, GPA: 8.8/10.00
Intermediate, Science, K V M Sr Sec School, Alwar, Rajasthan

2019 — 2023

2017 — 2018

PROJECTS

JSON to Form Converter ,

[link](#)

- It is a website where you paste the JSON and dynamically a form is generated.
- The best part about this project is I haven't used any external library or package to implement it.
- Main motive of this project was to build logic around different component and learn react in depth
- Tech Stack: html,css,React JS.

Ecommerce App,

- It is a shopping website.
- I have used different framework to learn frontend , backend and the whole functionality.
- Connecting the frontend and backend took some more time as there were lot of errors coming up.
- Tech Stack: BootStrap,html,css,React JS , NodeJS ,mongoDB.

Travel Blog,

[link](#)

- This is a blog website which is maintained by me. It contains experiences of my travel and some tips to make your travel more wonderful.
- In this site you can update live content into your database. Different route are connected to each other and the request is pulled from the database to display the content.
- Tech Stack: BootStrap, html, css, NodeJS , MongoDB, ejs.

SKILLS

Programming Languages : JavaScript , Python , C++
Front End : HTML , CSS , Bootstrap ,NextJS, ReactJS, EJS
Back End: NodeJS
DataBases MySQL , MongoDB
